

TODD CREEK VILLAGE METROPOLITAN DISTRICT

CLASS B WATER TREATMENT PLANT LEAD OPERATOR

JOB DESCRIPTION:

Utilize your technical Water Treatment knowledge while making a big impact for a small water district, servicing areas of Thornton & Brighton, CO. Under the direction of the Water Treatment Plant Manager and in compliance with all state and federal regulations, the lead operator performs duties vital to the success and safety of the Todd Creek Village Metropolitan District drinking water plant. This position would be best filled by a hard-working individual eager to gain new knowledge and skills and is excited by the prospect of growing into more responsibilities as the water district grows.

TIME COMMITMENT: Full Time as defined by working 40 regularly scheduled hours per week with on-call rotations, overtime, and flexibility as needed by District Operations

SALARY RANGE: \$63,000* - \$70,000*

*Starting salary will be determined by previous experience and technical certifications. Pay raises are merit-based as responsibilities increase and proficiency is proven. If you hold a current Class A Certified Drinking Water Operators License through the State of Colorado please contact TCVMD for job details.

ROBUST EMPLOYEE BENEFITS PACKAGE:

Beginning Day One of Employment: Sick Leave, Vacation days agreed upon at hiring based on years of industry experience as well as unlimited professional development and continuing education budget with prior approval, company provided work and safety gear

After 30 Days: Full medical coverage for employee+family dependents with \$0 monthly premium costs plus a Health Reimbursement Account equal to 50% of your annual deductible (\$2,625-\$5,520 value) and employer-paid short- and long-term disability coverage. Additional insurance policies available include dental, vision, and term life and AD&D.

After 90 Days: Optional 401K with up to 4.5% employer match

EDUCATION AND CERTIFICATIONS REQUIREMENTS:

- A current class B Certified Drinking Water Operators License through the State of Colorado
- A class R driver's license and clean driving record
- If you hold a current Class A Certified Drinking Water Operators License through the State of Colorado please contact TCVMD for job details

SKILLS AND COMPETENCIES:

- Maintain the minimum level certifications for the Water Treatment Plant
- Capable of moving 40-pound bags and 55-gallon barrels of chemical
- Ability to follow and understand safety procedures
- Ability to follow and understand Standard Operating Procedures
- Knowledge of computer software including Microsoft Office and SCADA systems
- Demonstrate competency in water quality testing and sample collection
- Demonstrate an understanding of both state and federal regulations
- Intermediate knowledge of hand tools, power tools, mathematics, plumbing, pumps, valves, motors, filters, and equipment maintenance
- Demonstrate the potential to train, educate, and supervise new and less experienced operators

DUTIES:

Duties include but are not limited to:

- Completing daily rounds and labs as outlined by the Plant Manager
- Handling hazardous chemicals in a safe and efficient manner
- Monitoring SCADA and adjusting within the operating limits outlined by the SOPs
- Collecting and checking compliance samples and ensuring delivery to Colorado Analytical Laboratory
- Performing On-call duties related to the drinking water plant, distribution system, and raw water systems during assigned 1 week "on-call" periods
- Reviewing and interpreting data gathered in rounds, labs, and compliance samples

APPLICATION INFORMATION:

Applicants can send their application information to toddcreek@toddcreekvillage.org with the subject line: LEAD OPERATOR APPLICATION

Included should be current contact information, resume, and proof of certification. Cover letters, references, and any other pieces of relevant information are also encouraged.
