

# TODD CREEK VILLAGE

METROPOLITAN DISTRICT

*Proud to be your area water provider*

## Meet Ryan Uran, Water Distribution Manager

The Todd Creek Village Metropolitan District team has grown again in our continuing commitment to serving the needs of our customers. To kick off the new year, we are excited to introduce you to Ryan Uran, our new-ish distribution manager. Ryan joined the team in April of 2023 to manage both the irrigation and Potable water systems.

Ryan brings a wealth of experience and a broad skill set to our team. Prior to joining TCVMD, Ryan was with the City of Broomfield for 17 years where he worked as a utilities foreman and Geographic Information Systems (GIS) technician. He was responsible for maintaining both the Potable and Reuse systems. Additionally, Ryan created the GIS map Broomfield uses for mapping and locates.

Ryan is a Colorado native, born and raised in Broomfield. He graduated from the University of Northern Colorado with a bachelor of science degree in business administration. After graduation, he saw a job posting for the City of Broomfield utility department and decided to apply. When asked how he got into utility work with a business administration degree, he responded, "I've always been mechanically inclined and love working with my hands. That, combined with the flexibility of working both indoors and outdoors is what makes utility maintenance interesting to me. It really fits my personality."

On the personal side, Ryan is married with three kids, ages four, 13, and 15. They love living in Broomfield and have become friends with the neighboring families over the years. The kids are all very active in sports so a majority of his time away from work is spent shuttling kids to practices and attending games to cheer the kids' teams on. The Urans also have two four-legged family members, both English Golden Retrievers.

Ryan really enjoys the strong team that TCVMD has assembled and the fact that they have a very strong common goal of bringing the best services and water to customers. He's excited for the challenges ahead and is committed to helping the district provide the best customer service and water quality possible. If you happen to see Ryan out and about, don't hesitate to say hi.

***Transparency Notice: Board meetings are held the second Thursday of each month at 2:00 pm via Zoom. The public is always welcome and encouraged to attend.***
